

# How to use Canva

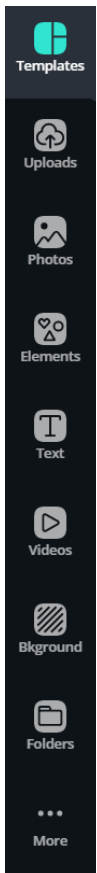

Create a design

Canva is a great tool that you can utilize for your student orgs! First go to [canva.com](https://canva.com) and click "Create a design!"

Then you will have to choose your dimensions. A Flyer is a standard 8.5 x 11 in. paper which generally works well. Otherwise add any of the other options or create custom dimensions

There are many tools such as uploads, elements, and text that can make your creation look awesome and get information out! Explore and have fun with it!

Finally, when your creation is complete click this button on the top right and it will give you export options that you can choose from!
