Program Exceptions:

A program exception is an exception made allowing a course to fulfill the requirement of a similar course. Exceptions need to be approved and submitted directly to the Registrar's Office. If you are requesting an exception in your University Requirements, General Education, or College Requirements, you will need to see the Dean of your College. If the exception falls within your major or minor, you will need to see the department chair of the major or minor. Any exceptions or substitutions to your degree program that have been received in the Registrar's Office will be entered on your U.Achieve Degree Audit, placed in the "Applied Exceptions" tab.
